WHAT'S NEW AT WINGAMIN July

Dear clients,

The year is flying by and breeding decisions are just around the corner so here's a quick summary of what we can offer you at our on-property sale on MONDAY, SEPT 14th, 2020.

Warburn 160048 progeny will once again feature in this year's sale. If you missed out last year there will be another great selection this year! This ram currently sits comfortably in the top 20 Elite White Suffolk Sires Australia wide. He has performed exceptionally well in all studs that used him across the country with progeny topping many sales. Sons sold for \$32,000 & \$25,000 for one stud and \$13,500 for another in 2019. He is currently in quarantine for semen collection to the United States.

TAG	BWT	WWT	PWT	PEMD	PFAT	DRESS	LMY	IMF	SHEARS	TCP	EQ	LEQ
160048	0.48	11.4	19.2	3.2	-0.5	3.3	4.39	-0.47	-0.5	164.2	158	159.3

160048 ranks in the top 1% Terminals for growth (pwt), dressing %, Terminal Carcase Production Index and for the new Eating Quality Indexes (EQ & LEQ) and the top 5% for all other traits in blue.

Prefix and tag number	TCP Index
Warburn 160048 (\$16,000)	164.2
Woolumbool 173980 (A.I.)	164.9
Somerset 130153 (A.I.)	158.2
Gemini 170403	157.3
Terminal Breed Average	136.6

In addition to our natural matings we also ran a highly successful A.I. program adding Woolumbool 173980 and Somerset 130153 to the mix.

Top of the drop ram lambs were used as back ups, including our 2019 Hamilton Champion to complete this year's offering. Main outcross sires are tabled on the left. The old Carcase + index has now been replaced with the TCP index.

You can be rest assured the young rams are shaping up well, have been grass fed from the break of the season and will be presented on sale day in good working condition.

PLEASE NOTE: The catalogue will be available for download from the website in late August. Previous buyers from the past 2 years will still receive a hard copy.

Covid-19 protocols will be followed as advised by Elders. More details to come closer to sale day.

TESTIMONIAL

"Wingamin stud has long been recognised nationally for top end genetics. We've seen that standard lift higher this year with extra thickness, muscle and meat capacity. The Wingamin on property draft would hold its own anywhere across the country".

Tom Penna - Elders Stud Stock.
